Declaration of Passport (Green Passport)

**Page 1 of 1
Issue 1**

According to BSH Germany to the best of their knowledge, The Green Passport is related to shipbuilding and lifetime of ship. Navigation equipment seems not to be in the list of relevant parts. However Navico is providing following information for our valued customers.

This statement identifies materials contained in the equipment systems listed below as categorised by IMO Resolution A.962(23) Appendix 3, Inventory of Potentially Hazardous Materials on Board, specifically Part 1, Potentially Hazardous Materials in the Ship's Structure and Equipment.

CDU (MX500, MX510, MX512, GN70, MX610, MX612)

Appx 3 Part 1 Table No	Substance	Amount	Equipment/Location
1C	Plastic(assorted)	Negligible	Units/Electrical Insulation, brackets, fixings etc
1G	Lead	Negligible	Printed Circuit boards

Heading and Antennas (MX575, MX521A, MX525A, MX421B-10, MXB5, MX575D, HS80A, MX521B)

Appx 3 Part 1 Table No	Substance	Amount	Equipment/Location
1C	Plastic(assorted)	Negligible	Units/Electrical Insulation, brackets, fixings etc
1G	Lead	Negligible	Printed Circuit boards

AIS (MX535)

Appx 3 Part 1 Table No	Substance	Amount	Equipment/Location
1C	Plastic(assorted)	Negligible	Units/Electrical Insulation, brackets, fixings etc
1G	Lead	Negligible	Printed Circuit boards

Junction Box

Appx 3 Part 1 Table No	Substance	Amount	Equipment/Location
1C	Plastic(assorted)	Negligible	Units/Electrical Insulation, brackets, fixings etc
1G	Lead	Negligible	Printed Circuit boards

Unless specifically stated, all Navico supplied goods will not contain substances identified in Appendix 3 Part 1 Tables: 1A (Asbestos), 1B (Paint Additives), 1D (Materials containing PCBs, PCTs. PBB), 1E (Gases) 1F (Chemicals)
